

Registration of a Master's thesis

Section 27 - Examination Regulations for the Elite Master's Degree Programme in Integrated Immunology (II-MA-M11) at the Friedrich-Alexander-University Erlangen-Nürnberg

The regulations for the performance of the Master's thesis in section 27 of the Master's Examination Regulations of 19.03.2018 must be strictly followed. In summary a few important key data:

The Master's thesis shall be supervised by a professor who works full-time in the Master's degree programme in Integrated Immunology. The Examinations Committee shall have the right to grant exceptions.

When registering, two supervisors will be specified who will also assess the Master's thesis later.

The Master's thesis must be completed within 6 months. It must be written in English. At the end, the Master's thesis contains a summary of the results as well as a short CV of the author. The title page is to be designed according to the model* adopted by the examination board. The Master's thesis must be accompanied by a declaration from the student that the thesis was written by him/herself and that no other sources and aids than those specified in the thesis were used. One bound and one electronic, machine-readable copy of the paper must be submitted to the supervisors/assessors and to the Examination Office; the relevant certificates must document the date of submission. If the Master's thesis is not submitted on time, it will be assessed as "insufficient" (5.0) and is deemed rejected. The final thesis must be submitted to the examination office together with the supervisor's declaration.

Declaration on the Master's thesis

Title of the thesis:

Submitted by:

It is my explicit wish that I receive a topic from the chair for

(hereinafter referred to as the Chair) receives a work for processing for which the following conditions apply. I was informed that I could have received another topic to which these conditions would not apply. I agree with the following points:

1. I agree that my work may be made available to the public by the Chair.
2. I grant the university a simple, free, temporally and locally unlimited right of use to the results of the work, including any industrial property rights and copyrights, for the purposes of research and teaching. The university's right of use includes the right to transfer the work to third parties for use in research and teaching.
3. During my work, I have received information and have taken a look at documents which are to be treated confidentially. Since the results of my work are based on the aforementioned information or documents, I will only make my work accessible to third parties or publish it with the consent of the supervising university teacher.
